# WHAT DRIVES US

## Ocean Freight

We are a Ocean Transportation Intermediary and Non Vessel Operating Common Carrier (NVOCC). Through a combination of strong carrier relationships and buying power, we are uniquely positioned to offer flexible carrier choices at value pricing. Our internet tracking system provides complete visibility from vessel loading through delivery and our experienced and professional team members are ready to review the intricate process of global shipping through our automated system offering shippers a one stop solution to and from any point worldwide.

Our sea freight services encompass both less container load (LCL) and full-container load (FCL) shipments, consolidated shipments, general specialized or bulk cargo. As a result of volume contracts we have with major shipping lines we obtain value-based pricing and excellent space commitments to satisfy our valuable customer. Supplementary facilities like warehousing-free or bonded, handling or transporting equipment's are standard.

### Our ocean freight services include;

- > Complete FCL and LCL Consolidation service
- > Multi-country Consolidation to and from any part of the globe (MCC)
- > Through bill of lading service to and from any part of the Globe
- > Export and Import documentation services from the time of its order to the sale
- > Transportation services
- > Warehousing

# WHAT DRIVES US

## AIR FREIGHT

Shipping your freight by air with us will keep goods moving at optimal speed and efficiency along the supply chain. We have contracts with the world's major international carriers that secure space on various flights each month and provide real-time, global tracking as part of our standard capabilities for fast, efficient and reliable international airfreight deliveries worldwide. While Urgency And 'Time is money' are valid rationales for choosing air freight the truth is that efficient air cargo transport takes more than just a plane and a space on a flight it demands expertise in every planned phase and possible contingency along your shipments journey. We wield that comprehensive knowledge in a silo-free organization where experienced specialist collaborate seamlessly to guarantee true turnkey execution.

Golden Gate Logistics PVT Ltd, provides a world wide network for all your air freight needs with guaranteed and time defined services. As a strong player in the market we offer competitive rates for all the time and costs requirements. The main element of our Air Freight management is the ability to move single or complex shipment by air, at any time and from any destination airport to and from Colombo/Sri Lanka.

Empowering our customers with an expansive international infrastructure that fuses world wide coverage with local expertise, we are single source solution to complexities of global freight forwarding. Golden Gate Logistics Pvt Ltd consistent quality and superior services to ensure proper handling and safety, timely delivery of your valuable Air shipment every time. We provide Flexible And Customer-friendly personalised services to all customers.

## DESTINATION BASE PORTS

**Multi-Country Consolidation (MCC)** service helps you optimize your cargo flow by bundling shipments from different suppliers in multiple origins countries – providing streamlining, visibility and helping you reduce your Supply Chain Management costs.

Our Multi-Country Consolidation service is a perfect match for customers importing from many different countries in a hub, but who lack critical volume to build own direct FCLs on a regular basis from all origins.

Gateway of **Innovative** Logistics Solutions

## WHAT DRIVES US

### Project Cargo Solutions

With a vast network of agents and capacity providers and our experience in co-ordinating multi-modal transportation solutions, we have the expertise and knowledge to help you move break bulk, heavy lift and oversized cargo forward safely and efficiently. However, our business is about more than simply moving cargo, you can rely on our entrepreneurial spirit and focused commitment to deliver exceptional customer service

### Cross Trade Shipping

Cross Trade, also known as Triangular Trade, Third-Party Shipments, or Foreign-to-Foreign Shipments, is a transaction involving three parties in three different countries. It refers to cargo that is transported by either road, rail, air, or sea from an origin to a destination country. This is where the seller of the goods is not the manufacturer or exporter – like in dropshipping – but where up to three different countries may be involved. It's mainly when the seller is not in the same country as where the goods originate from.

Our well experienced team is fully aware of what you need. We can handle your shipments from any port to another port or airport of the globe, for an example, if you need to ship your cargo from China to Africa we can handle it sitting in Sri Lanka offering cost effective solutions and express solutions to have your shipment at your port or door step. Most of the top buyers now look for products from any part of the world but do not have professionals to handle the orders. GGL team can handle all that for you sitting in one place. Just buzz us with your inquiry and leave the rest with us.

# Supply Chain Solutions

In a highly competitive, increasingly globalised business environment, reliable supply chain management can make the difference between success and failure. It is a critical success factor for manufacturers and retailers in many industries.

Industry logistics solutions at GGL add enormous value to your supply chain by providing over 15 years of experienced solutions to all your supply chain requirements. Our global presence and expertise with deep industry knowledge are second to none. We provide warehousing, road, sea & air freight management systems which are modified to deliver efficient and effective solutions for key industries locally and globally. Our industry logistics team possess essential knowledge about all supply chain necessities of any industry and always strive to assist our clients cost – effectively while maintaining high standards with extreme punctuality to reach their goals, adding values to the sale

We do our level best to deliver your products right on time or even before the delivery date/-time because we are very much aware and educated enough to understand that “Time Management” is the key to achieve the targeted profitability.

## Customs Clearance

Our presence in all the ports and airports in Sri Lanka including Colombo Sea Port and Katunayaka Airport ensures our customs clearance services run efficiently 24/7.

We are fully geared to clear any kind of cargo on arrival at the Sea port of Colombo or Airport of Colombo, we collect necessary permits to import & export commercial goods and household utilities, We have a separate team set to run around on request doing all our customers work taking all his pain and hassle. GGL has its own developed system and sharing latest information and technology with logistics have created a platform that uses an electronic data exchange system to communicate any information regarding imports and exports with Sri Lanka customs enabling us to provide a smooth clearance service to all our clients, leave your headache with us.

## Gate Way of **Innovative** Logistics Solutions

## Global Connect Service

The port of Colombo has developed rapidly during the last decade into one of the most dominating ports in Asia handling both conventional cargo and containers. Colombo offers an ideal geographical location with minimum deviation from shipping lanes, fully equipped berths for the latest container vessels, and excellent feeder network. Taking the above advantage, GGL offers a global connect service through Colombo by providing faster transshipment services, efficient reworking at Colombo, accurate documentation, timely communication to all concerned. This service is named as “Global Connect”.
